

Trust in the power of reliable feed materials

## TECHNICAL DATA SHEET: HYDROLYZED FEATHER MEAL

### 1. CHEMICAL & PHYSICAL SPECIFICATIONS

- **Crude Protein:** Min 80.0%
- **Moisture:** Max 10.0%
- **Crude Fat:** Max 8.0%
- **Crude Fiber:** Max 1.0%
- **Ash:** Max 4.0%
- **Pepsin Digestibility:** Min 75.0%
- **Appearance:** Light brown to brown granular meal with a characteristic odor.

### 2. SAFETY, CONTAMINANTS & LOGISTICS

- **Heavy Metals:** Pb < 0.5 mg/kg | As < 1.0 mg/kg.
- **Storage:** Store in bulk silos or 1000kg big bags in a dry, ventilated environment.
- **Shelf Life:** 6-12 months.
- **Handling:** Use PPE to prevent inhalation of fine particles during bulk discharge.

### 3. COMPLIANCE DECLARATION

- Produced by the high-pressure hydrolysis of clean, un-decomposed feathers from poultry.
- Highly concentrated source of sulfur-containing amino acids (Cysteine).
- Fit for use in aquaculture and non-ruminant animal feed.
